GRAINS RESEARCH UPDATE

BOOSTING PROFITABILITY – RESILIENT SOLUTIONS

GRDC

GRAINS RESEARCH
& DEVELOPMENT
CORPORATION

Temora Agricultural Innovation Centre, Treflé Exhibition Shed
361 Trungley Hall Road, Temora

Thursday 15th August 2019

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Super high oleic oil safflower**
Renewed interest builds in this long-standing crop option? What are the new and emerging markets. The agronomic features and fit in the rotation to combat root disease and compaction.
David Hudson
Go Resources
- ▶ **Ameliorating sodic subsoil constraints**
Research in progress shows great potential for soil structure and crop production improvements through deep placement of amendments. PLUS new and improved testing to accurately identify sodic soils.
Ehsan Tavakkoli
NSW DPI
- ▶ **P & N nutrition - getting it right on your farm this season**
What rates do you target given current seasonal conditions? Where is the 'best bang for your buck'? P stratification and the impact on crop management.
Graeme Sandral
NSW DPI
- ▶ **Refining the management of cereals**
Management tips for early sown winter wheats. Impacts of management on barley variety performance including Planet.
Felicity Harris
NSW DPI
- ▶ **Your future farming needs – OPEN RCSN FORUM**
Opportunity for you to flag the productivity and profitability issues, constraints or opportunities relevant to your district and farming system?
Chris Minehan
Local GRDC
RCSN coordinator
