

**BALAKLAVA
SOUTH AUSTRALIA
THURSDAY 13TH
FEBRUARY 2020**

GRAINS RESEARCH UPDATE

Balaklava Town Hall, 8 Wallace Street

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

► **What's the cost of Harvest Weed Seed Control for you?**

Demonstration of a tool that uses crop yields, sowing area, costs of HWSC options and efficacy on locally important weed species to determine the best HWSC option for a given situation.

*Peter Newman
AHRI, Planfarm*

► **The hows and whys of deep ripping sandy soils**

An explanation for the deep ripping of sandy soils and how to achieve the best results. Expected magnitude of improvement in crop performance.

*Brian Dzoma
SARDI*

► **Use of chemicals and residues arising**

Perceptions and requirements of key export markets and the implications for advisers and growers.

*Gerard McMullen
National Working
Party on Grain
Protection*

► **Rapid post-event frost damage assessment - can it be achieved?**

In-paddock tools to detect and quantify frost damage in wheat to enable better hay cutting decisions.

*Glenn Fitzgerald and
Audrey Delahunty
Agriculture Victoria*

► **Integrating new chemistries in the field**

Update on resistance data for pre-emergent herbicides. Best use of new chemistries in the context of crop safety plant back, where they fit in the rotation, soil, rainfall and seasonal impacts.

*Chris Preston
The University
of Adelaide*
