# GRAINS RESEARCH UPDATE **ONLINE**

**GRDC**  
GRAINS RESEARCH  
& DEVELOPMENT  
CORPORATION

## CAMPBELL TOWN

Start your day by tuning in from 8.00am to 9.30am

**WEDNESDAY 1ST JULY 2020**

Live Question and Answer sessions with:

**Nick Poole**, *FAR Australia*

Tasmanians are on the frontline of fungicide resistance – what options are available to ‘slow the train’?

**Paul Lomax**, *Agrichem*

What impacts the supply of agricultural input products?

**Meixue Zhou**, *Tasmanian Institute of Agriculture*

Crops that perform well in waterlogged conditions – will that become a reality?

**Chris Preston**, *University of Adelaide*

How best to tackle herbicide resistance with new and old chemistries in Tasmanian farming systems?

Including queries on adapting to local conditions with **Terry Horan**, *Nutrien Ag Solutions* and  
**Michael Chilvers**, *GRDC Southern Region panel and Tasmanian grower*

**Click here to register for the free GRDC Update live stream**

GRDC Update live streams: enabling growers to tap into GRDC research relevant to their farm.
