

GRAINS RESEARCH UPDATE

Community Club, Maitland Road, Ardrossan SA

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

► **Tools in the toolbox for effective powdery mildew control**

Sam showcases the results from local based powdery mildew trials. Discover how popular local varieties are performing in relation to powdery mildew varietal resistance and the implications for this season.

*Sam Trengove,
Trengove
Consulting*

► **Establishing effective crop nutrition budgets**

Don't let poor fertiliser management hit your back pocket this season. Sean discusses how to utilise nutritional budgeting to effectively manage nitrogen, phosphorous and potassium in relation to current grain prices.

*Sean Mason,
Agronomy
Solutions*

► **A strategic approach to weed seed control**

Deploy a strategic approach to managing weed seeds this season. Chris identifies the key strategies and tools to achieve high weed seed kill rates while managing the existing seed bank.

*Chris Davey,
YP AG*

► **Practical Applications for precision agriculture**

Discover how precision agriculture can be leveraged this season to drive farm profitability. Jessica details how to identify patterns and trends in your farm data to achieve practical results.

*Jessica Koch,
Breezy Hill
Precision Ag
Services*

► **Lentil variety update and the existing herbicide options in pulses**

Discover how to make the most out of your pulse crops this season. Penny & Jordan present an update on the current state of lentil varieties, disease management, pod drop and the crop safety implications of new products on the market.
