2023 GRDC GRAINS RESEARCH UPDATES SOUTHERN REGION

Industry exposure for your technology and innovations

The GRDC Grains Research Updates continue as flagship extension platforms for the grains sector, delivering critical information for grain growers and their advisers. The Updates deliver the latest outcomes arising from the many research, development and extension projects supported by investment from GRDC and their research partners.

The GRDC Grains Research Updates provide quality, evidence based information on topical and practical issues relevant to the productivity and profitability of grain growing enterprises.

Industry representation at the GRDC Grains Research Updates is a valuable aspect of the events. They provide an exceptional networking opportunity and an ideal forum to generate awareness of new and existing products. Attendances average from 320 - 450 at the 2 Day updates.

This is your opportunity to:

- Demonstrate support for the grains industry and add value for attendees to the GRDC Grains Research Updates;
- Increase and enhance contact with leading advisers, growers and researchers;
- Engage with potential clients;
- Enhance your company profile with the advisory and production end of the grains industry; and
- Inform your customers of new innovations and products

Please Note: All industry support applications are subject to approval by GRDC.

All offers are subject to State Government COVID-safe policies at the time of the event.
