

BANNOCKBURN
VICTORIA
THURSDAY, 22ND
FEBRUARY 2024

GRAINS RESEARCH UPDATE

Cultural Centre, 27 High Street Bannockburn

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

Topics

- ▶ **Tackling cereal disease challenges head on**
Discover emerging strategies for tackling cereal diseases particularly Septoria and stripe rust. Nick provides an overview of the 2023 season and the disease implications for 2024.
*Nick Poole,
FAR Australia*
- ▶ **Climatic Predictions – Key learnings from 2023 and building climate resilience**
How did the national climate forecast compare to the local season? Dale provides a climatic wrap up for the season and identifies key levers for effectively managing climate risk.
*Dale Grey,
Agriculture Victoria*
- ▶ **Adopting Innovative Agronomic Practices and Research - A Canadian Experience**
Sheri will bring over 20 years of experience focussing on enhancing the profitability of Canadian crop producers. From a background in agronomic research Sheri also farms with her husband Shane near Neerlandia, Alberta. Sheri will compare and contrast their challenges with those faced by Australian growers.
*Sheri Strydhorst,
Canadian Agronomist*
- ▶ **Lime application strategies for pH management**
Its time to explore topical issues around soil stratification and sampling. Lisa provides insights into what is considered to be best practice and how liming fits within the broader farming system.
*Lisa Miller,
Southern Farming Systems*
- ▶ **Fact Vs Fiction for slug baiting**
Tackle slugs head on this season by implementing a targeted baiting strategy. Michael provides insights into the impacts of biology and environmental conditions on slug baiting.
*Michael Nash,
What Bugs You*
