

SEA LAKE  
VICTORIA  
THURSDAY 18TH  
JULY 2024

# GRAINS RESEARCH UPDATE

## Sea Lake Community Complex, 40 Complex Drive, Sea Lake

9.00 am to 1.00 pm followed by lunch (doors open at 8.30 am for a 9.00 am start)

### Topics

- ▶ **Key strategies for the management of Feathertop Rhodes Grass**  
Hanwen outlines key strategies for the management of Feathertop Rhodes Grass. Learn how biology will impact upon the management of this emerging weed.  
*Hanwen Wu, NSW DPI*
- ▶ **Sticking to rotations in the face of broadleaf weeds**  
Weeds can prove to be problematic when sticking to certain crop rotations. Navneet & local agronomist Matt Bissett outlines key strategies for managing problematic broadleaf weeds.  
*Navneet Aggarwal, SARDI & local agronomist*
- ▶ **Nitrogen strategies for N Banking**  
It's time to revise your nitrogen management strategy for this season. Yolanda will discuss nitrogen banking strategies and the impact of timings on nitrogen use efficiency.  
*Yolanda Plowman, BCG*
- ▶ **The economics of cereal disease management**  
Powdery mildew and rust have been persistent diseases for the region. Ben explores the economics of fungicide applications. Discover the role that varietal resistance has to play within an integrated disease management strategy.  
*Ben Morris, FAR Australia*
- ▶ **Leverage protein maps for profitability**  
With the use of protein mapping on the rise discover how protein maps can be utilized to identify problem paddocks. Edward Scott from CropScanAg provides an update on the technology available and where to start when analysing paddock data.  
*Edward Scott, CropScanAg*

\$30 per person (GST inc.) Morning tea, lunch and proceedings included.  
Extra proceedings: \$30 posted inc. GST
